| Cellings | <u>N</u> | | |
| Doors | <u>N</u> | | |
| Foundation/Slab(s) | <u>N</u> | | |
| Driveways | <u>N</u> | | |
| Electrical Systems | <u>N</u> | | |

* Chapter 766 of the Health and Safety Code requires one-family or two-family dwellings to have working smoke detectors installed in accordance with the requirements of the building code in effect in the area in which the dwelling is located, including performance, location, and power source requirements. If you do not know the building code requirements in effect in your area, you may check unknown above or contact your local building official for more information. A buyer may require a seller to install smoke detectors for the hearing impaired if: (1) the buyer or a member of the buyer's family who will reside in the dwelling is hearing impaired; (2) the buyer gives the seller written evidence of the hearing impairment from a licensed physician; and (3) within 10 days after the effective date, the buyer makes a written request for the seller to install smoke detectors for the hearing impaired and specifies the locations for the installation. The parties may agree who will bear the cost of installing the smoke detectors and which brand of smoke detectors to install.

2. Does the property have working smoke detectors installed in accordance with the smoke detector requirements of Chapter 766, Health and Safety Code? Yes No Unknown. If the answer to this question is no or unknown, explain (Attach additional sheets if necessary):
- how has smoke detectors installed by the electric code book*
