

1496 Kramr Rd.
Fayetteville, Tx 78940

On the outskirts of Fayetteville and minutes from Round Top, Trinity Farm sits atop a 55+ acre parcel with panoramic views of the rolling countryside. Round Top Home Builders worked with the designer/seller of the farm to custom design and build the new modern farmhouse and to lovingly restore 2 historic guest houses. There's a tennis court (which could be converted to a pickle ball court), a new fully insulated shop, as well as an old barn and another house waiting for rebirth. This is a real beauty with all the designer touches found in country chic properties.
